

Music and Musicians

Artists Falter Not.

One of the main events of the past two weeks in music circles has been the unequalled success of "The Mikado," from an artistic viewpoint, even if the financial remuneration was not so great as those who first undertook the production expected. It is to the lasting credit of the excellent singers and the members of the well drilled orchestra that after the first night of the production at Wamamere, all of the succeeding performances moved without a flaw that might call forth the adverse verdict of any reasonable judge. And the commendation seems particularly merited when it is noted that the work of the singers and those who managed the production was given virtually without compensation, it was "Art for Art's Sake" and with a sincere desire to aid the good cause of the Free Kindergarten and Neighborhood House. That the patronage was not greater is due to causes easily understood, but none will say that there was any need to apologize for the quality of the production. The various members of the company have already been complimented for their excellent work, but there is one feature growing out of the work that has not been referred to. Mrs. Barbara Eldredge, who scored so great a triumph in the role of Katisha, and whose magnificent voice and artistic training easily demonstrated her capacity for the really great parts in grand opera, has suggested to Squire Coop that he next summer prepare his singers and orchestra for the production of "La Tosca" or "Carmen," offering to come back during her vacation from her old world work and sing the leading role in either opera. This offer is a tribute not only to her devotion to her art and her faith in its uplifting power, but likewise signifies her appreciation of the excellent standard of work set by Mr. Coop and those who worked with him.

Young Genius En Route Home.

Charles L. Shepherd, Salt Lake's young musical genius, who recently won the first prize, a grand piano, at the New England Conservatory of Music, is on his way home, and will spend the summer with his parents, Mr. and Mrs. W. N. B. Shepherd, 170 A street. The young artist, who has been graduated with high honors, has attracted wide attention in the east and a career of musical fame is predicted for him. He went from Boston to Galveston by water, and from there to Los Angeles, where he was met by his mother and William A. Shepherd, who are accompanying him home.

Regarding the young pianist's work, a Boston paper says: "In graduating Charles Lorenzo Shepherd, the New England Conservatory sends out a young pianist who displays the traits of an artist. His performance, last Tuesday afternoon of the second and last movements of the A minor concerto of Grieg indicated that he has progressed beyond the conscientious application of classroom principles, and was able to impart vitality and emotional force to his playing through an individual interpretation. Mr. Shepherd is well equipped technically; he finds his way with fluency upon the keyboard; his touch admits of power and variety without the sacrifice of sympathy, and he has taken note of the salient laws in musical construction, such as those governing the value of rhythm, of accentuation and of proportion in building a phrase and a series of phrases."

Music Notes.

Prof. Anton Pedersen says he is highly pleased with the progress that the Philharmonic orchestra is making. When the famous Seventh Beethoven symphony was played at the last rehearsal, the musicians went right through the score, giving proper coloring and interpretation throughout. The orchestra is still in need of more second violins and violas to balance the instrumentation properly.

Edward P. Kimball, assistant organist at the tabernacle, has been elected to membership in the National Association of Organists, whose headquarters are in Chicago. The association holds its annual convention at Ocean Grove, N. J., in August.

News has been received that Emily C. Burke of this city has made her debut successfully in an Italian cantata in Milan, Italy. Mrs. Burke's cantata appears on the programme as Emelia Bureli. Her voice has developed into a high coloratura soprano.

A. H. Peabody of this city has received from Prof. Ebaugh, who is a member of the state university faculty, and who is now traveling in Europe, a programme of a concert given in St. George's United Free church, Edinburgh.

L. W. W. FIGHT IN THE MINERS' CONVENTION

CRIPPLE CREEK, Colo., July 20.—The Western Federation of Miners, in annual convention at Victor, went into executive session this morning to take up the charges of Thomas Campbell of Butte, who alleges that certain officers of the federation are not working for the interests of the organization and that B. Apperson, general superintendent of the Utah lines of the Denver & Rio Grande, is a traitor to the cause.

The party went to Clinton, which is six miles south of Thistle on the Marysville branch of the road, and there inspected the marble quarries. All were enthusiastic over the marble, some insisting that it was the finest they ever saw. The trip was taken in Superintendent Apperson's private car Waasatch.

Entertain State Officials.

Governor William Spry, Secretary of State C. S. Tingey, Attorney General Albert R. Estames and other prominent citizens of Utah were the guests of A. B. Apperson, general superintendent of the Utah lines of the Denver & Rio Grande, at Clinton, which is six miles south of Thistle on the Marysville branch of the road, and there inspected the marble quarries. All were enthusiastic over the marble, some insisting that it was the finest they ever saw. The trip was taken in Superintendent Apperson's private car Waasatch.

JAMES B. HAGGIN IS SUDDENLY TAKEN ILL.

LEXINGTON, Ky., July 20.—James B. Haggin, the California copper magnate, who came here in the interest of the tobacco pool, was taken ill today and sent to the Good Samaritan hospital. The only statement that the attending physicians would give out was that his illness was not serious.

Old Post Abandoned.

BALTIMORE, July 20.—The bugle reveille call which has echoed across the Patapsco river and through historic Fort McHenry for the last 137 years, sounded this morning for the last time, marking the abandonment of the old garrison as a military post. The soldiers stationed there were sent to Fort Strong, Massachusetts.

Bryan's Name Erased.

MONTGOMERY, Mo., July 20.—The name of W. J. Bryan has been erased from the Chautauqua programme here in August because of the criticism which followed in this, Clark's home district, "The Nightingale" convention. When the programme came last week with Bryan's name on it, it caused quite a furor and the local committee requested it be erased, which was done, according to a telegram from the Chautauqua management.

Home Rule Indorsed.

CHICAGO, July 20.—Resolutions indorsing the Irish home rule bill now pending in the British parliament were adopted tonight at the closing session of the Ancient Order of Hibernians' annual convention.

The ladies' auxiliary today elected these officers:

President, Mrs. Ellen Ryan; Jolly, Parnell; R. L. secretary, Mrs. Adelia Christy, Columbus, Ohio.

Noted Physician Dies.

DETROIT, July 20.—Word was received here today of the death on Thursday in McAlester, Okla., of Dr. Regene Gibbs, formerly a member of the University of Michigan faculty, and at one time one of the world's foremost pathologists. Dr. Gibbs was a pioneer in the campaign against tuberculosis. He was 60 years old, and it is presumed that advanced age was the cause of his death.

Legion of Candidates.

NEW YORK, July 20.—Aspirants for the gubernatorial nomination developed at today's meeting of the Republican state committee. Among them are John E. Hedges, New York; James W. Wordworth, former speaker of the assembly, and ex-Congressman S. Bennett.

Dock Strike Ends.

NEW YORK, July 20.—It was announced today that the strike of the longshoremen was ended, all the men having returned to work.

BOOM TIMES ALONG SALT LAKE ROUTE

General Manager Nutt Reports Excellent Conditions; More Coal Pockets Later.

Henry C. Nutt, general manager of the Salt Lake Route, with headquarters in Los Angeles, accompanied by F. E. Davis, superintendent of machinery, arrived in Salt Lake City last evening. Mr. Nutt was met at Caliente, Nev., by T. E. Vickers, master mechanic for the company at Milford; H. E. Van Housen, division superintendent, and J. H. Manders, assistant general freight and passenger agent, who accompanied him over the Utah lines of the company. Mr. Nutt said:

"We found the country booming all along the line. At Lovndy, the Sevier River Land & Water company has sixty teams at work, according to the information we received there, and are making the dirt fly. We were out over the Delta Land & Water company's project yesterday and it certainly looks fine for the first year that water has been put on it."

In regard to the big improvement at Los Angeles by the construction of great coal pockets there, I would say that the chief engineer of our company, S. Tilton, has conferred with the harbor commission. The harbor commission has talked about widening the harbor at the narrowest place, where our wharves are located. If they decide to do anything it will not be for several months yet and then we shall have to plan to move back some of our wharves."

We have made no plans for the construction of coal pockets and shall not do so until some definite action is taken by the harbor commission or the city of Los Angeles. I believe that we shall not make any changes in the information we received there this year. We expect a heavy trade when the Panama canal is opened to traffic, but we have plenty of time to prepare for that."

ASK CITY TO USE UTAH ASPHALT FOR PAVING

A petition bearing the names of property owners claiming to have the title to 7000 feet of property on Fifth East street, between Tenth South and Twelfth South streets, which has been circulated by Thomas Homer, and in which the petitioners ask for the use of Utah rock asphalt on that thoroughfare, will probably be heard by the city commission next Monday night.

At the meeting of the city commission last Thursday morning it was decided, upon motion of Commissioner R. P. Morris, to use Utah rock asphalt for the paving of Fifth East street, between Tenth South and Twelfth South street, and also on Second South street, between Tenth East and Eleventh East streets.

Laborer's Back Broken.

R. Miyamoto, a Japanese laborer, was brought from Bingham with a back caused by an accident yet unexplained, and taken to St. Mark's hospital last night.

CHANGES IN OFFICES.

Several changes are being made in the offices of the Bingham & Garfield Railway company in this city. The civil engineering department is being moved to the Monty building and the traffic department will occupy the offices formerly occupied by the engineering department, on the sixth floor of the McCormick building.

RAILROAD NOTES.

James B. Duffy, general agent of the passenger department of the Santa Fe, was in Salt Lake Friday on his return from Yellowstone park, which he visited by the "Wylie Way" with 147 Knights of Columbus from California.

Officials of the Oregon Short Line, who are on the third "set-acquainted" trip of this year, will return to this city today.

E. B. Erwin, general agent for the Salt Lake Route at Denver, was in Salt Lake yesterday. Mr. Erwin formerly lived in Salt Lake and is well known here.

J. C. Doolittle, general agent here for the Rock Island, has returned from a trip to southern California.

Miss Virginia Meade and Miss Alice Meade, daughters of J. M. Meade, who is chief engineer of the eastern lines of the Santa Fe, with headquarters in Topeka, arrived in Salt Lake yesterday over the Denver & Rio Grande. They are with a party of Kansans and left for the Yellowstone park over the Oregon Short Line last evening. They will visit the park by the "Wylie Way."

FIND DIRT PRESENT IN SAMPLES OF MILK

Truman Tyrel, acting city food and dairy inspector, yesterday submitted to Mayor Samuel C. Park a report of tests made of twenty-eight samples of milk gathered from wagons on July 17. The report of the tests shows the milk distributed on that day to have been among the dirtiest, if not the dirtiest, of any which has been tested this year.

Thirteen of the samples showed the presence of dirt; in one case the dirt was noticeable and in still another extremely noticeable. All of the samples contained the requisite percentage of butter fat, but ten were below the standard in requisite total solids.

The standard of butter fat is 8.5 and that of total solids 12.00. A report of the tests is as follows:

—It requires the harmonious labors of many men, all striving for a common end, to produce our two famous products—AMERICAN BEAUTY and "OLD GERMAN LAGER."

—The farmer who raises the barley and the Bohemian peasant garnering the aromatic hops, the brewer who extracts the nutritious juices from the grains and blends them with the tonic extracts—

—The man of science, bending over his microscope to guard your health by securing absolute perfection in the yeast cells and life giving albuminoids—

—The careful attendants who guard the temperature of the brew during the long months of aging in the sanitary glass lined steel storage tanks of the brewery—

—The men who wash and sterilize the vessels in which the beer is delivered to your home, all are co-operating to a common purpose—that of providing your family with a perfect liquid food.

—Our Beers are not unlike a liquid form of home made bread. They are made from the choicest grain, crushed instead of ground, the food units extracted in soluble form instead of being reduced to flour. These are pre-digested; fermented by the addition of the purest and most healthy yeast, sterilized by boiling instead of baking, and delivered to your door sealed, clean and perfect.
